

For Immediate Release

About Keiser Corporation

For the past three decades Keiser has been changing the way people of all ages and abilities exercise while helping to improve their performance and quality of life. Keiser produces low impact, pneumatic resistance equipment utilized by athletes, fitness enthusiasts and rehabilitation experts worldwide. Their users are linked by one common goal-the ability to train at any speed without fear of injury.

Keiser also produces the award winning M3 Indoor Cycle, and the new M5 Strider. M Series cardio equipment blends cutting edge design with Keiser's innovative magnetic resistance system. Experience the ride of your life, or find your stride with M Series by Keiser.

With a focus on power development for all walks of life, it is Keiser's passion to challenge the barriers of traditional thinking to continually expand the limits of human performance.

Visit us online to view our entire line of equipment, or contact a sales rep in your area to get more information on demos, trainings and product specifications.
